Social Media Performance Review

Meta Business Suite Analysis | April 21, 2026

Prepared by: Mar Thayne Lowell Nacionales

Executive Summary

Current State

- 37 FB followers | 106 IG followers
- High-quality educational content
- One strong performance spike (April 26)
- Instagram has been relatively quiet recently

Key Finding

We have strong, high-quality content with great potential. However, reach and engagement are currently limited because:

- Posting volume has been lower recently
- We are currently running 100% organic (no ads or boosting yet)
- Opportunity to improve posting consistency

Main Opportunity: Shift from “organic only” → Reels + Consistency + Smart Boosting

Performance Snapshot (Last 28 Days)

Metric	Facebook	Instagram	Verdict
Followers	37	106	Very early stage
Views	309 (+243%)	29 (-3.3%)	FB had 1 spike
Reach	—	4 (-60%)	Extremely low
Content Interactions	3	2	Near zero
Link Clicks	1	—	Almost none
New Followers	0	2	Stagnant
Ads Running	0	0	None

Bottom line: One post performed well. Everything else is invisible to the algorithm.

What's Working

Excellent Content

Insulin resistance, weight loss, free community topics are highly relevant

Carousels Perform Best

Multi-photo carousels = 167 views (strongest format)

Professional Branding

Green + gold color scheme + strong banner concept

Link Ready

Free community on Skool and links for the websites already exists — perfect for traffic

Key Areas for Growth (Opportunities)

1.

1

Opportunity to Add more Reels

- Reels are Meta's #1 growth driver in 2026

2

Opportunity to Boost Engagement

Engagement (comments, shares, saves) is currently low, which affects how much the algorithm shows our content.

3

Opportunity to Increase Content Volume on Instagram

We've had limited activity recently (29 views over 28 days), so there's room to post more consistently.

4

Opportunity to Test Paid Promotion

We are currently 100% organic with a smaller follower base, which naturally limits our reach.

5

Opportunity to Improve Posting Consistency

Some weeks has more content, while other weeks we fall behind.

6

Opportunity to Strengthen Facebook Page Setup

Current page has a generic CTA, a full banner, no pinned post, and zero reviews yet.

Facebook Page Audit & Recommendations

Current Issues:

Banner currently contains quite a lot of text

CTA button currently says “Learn more”

Profile picture is currently a small dark circle

About section is quite detailed and lengthy

No pinned post is set yet

Reviews are not yet visible on the page

Recommended Fixes (Priority):

- 1 Create a new clean banner with one strong headline + clear CTA
- Update CTA button to “Join Free Community”
- Replace profile picture with a clear, professional headshot
- Simplify and rewrite the About section to be shorter and benefit-focused
- Pin the strongest post (QR code post)
- Start collecting and showcasing 5-star reviews

Instagram Performance & Recommendations

Current State

- Only 29 views & 4 reach in 28 days
- Almost zero content published
- Meta literally says: “Grow reach with Reels”

Action Plan

- Post minimum 2 Reels per week
- Use trending audio + strong hook
- Repurpose best FB carousels into Reels
- Daily Stories with polls + link sticker

30-Day Growth Plan

Goal by June 25, 2026: 250+ total followers | 10+ link clicks/week | Consistent engagement & noise
